ingly damaging character against the prisoner, and asked that he be held for the Grand Jury.

In his affidavit Fire Marshal Mitchell avers that Carque was the proprietor of the candy store, and rented the rear of the basement as a manufactory. There was not \$200 worth of stock in the place at the time of the fire, but nevertheless Carque held a policy in the Germania Fire Insurance Company for \$3,000 on stock and fixtures, which expired on the 18th, just two days after the blaze. The building was a three-story structure, owned by Mrs. Eliza Hertz, and the upper floors were occupied by several families, among them being that of R. D. Burke. At 3.30 o'clock Carque was on the street talking with Foliceman Hopper and J. F. Egieston, a night watchman in a nearby factory. He had on no overcoat at the time. At 3.35 he entered the store and was not seen again until Burke, one of the tenants, rushed out of the house screaming fire. Carque appeared soon after wearing an overcoat which was covered with sawdust.

Policeman Hopper turned in an alarm and started through the building awak.

dust.

Policeman Hopper turned in an alarm and started through the building awakening the tenants. The halls were filled with smoke, and there was a peculiar smell that excited his suspicion.

The firemen found that the fire originated in a barrel of sawdust in the basement and quickly smothered the flames. Others went upstairs, but found that all the occupants excepting Joseph Burke, the four-year-old son of the man who gave the alarm, had escaped to the street. street.

The child was sick with the grip, and was carried out to neighbors, where it died next day from the suffocating effects of the smoke and exposure.

On being questioned later. Burke said that he had heard an explosion in the basement previous to the fire, and that he saw a man answering Carque's description rush out of the back door and escape over a fence.

DR. A. T. SANDEN.—Dear Sir: For 18 years
was troubled with a weak back, and was so bat
that I applied for a pension, which was grante
me. In my business, which is boating, it is nee
seasary to do a great deal of lifting, which great
distressed me. The very day I commenced wit
the Belt the pain had left me, and I have no
